Editorial Review:

Product Description:

Pet Hideaway or Kitty Litter Hideaway - either way this product complements every room in the house. Constructed of durable MDF, and packaged KD. It is available in non-toxic white or espresso painted finishes. The Hideaway is a trouble-free solution to changing the kitty litter with a swing of the front door. Conveniently hang your litter scoop on the hook just inside the door. The Hideaway is also a great option for the dog in the family when used as the Pet Bed Hideaway.
